

RISK Assessment Information Form

We would like to calculate the risk factors you have to develop breast Cancer. In order to do this we would need some personal information as well as some information about your relatives. Here is a list that will help you gather all the pertinent data necessary to do the calculation:

Please find out these details about these relatives:

Relative	Age- now	ovarian cancer developed at age	Breast cancer developed at age	other cancer type and age it developed
Mother				
Sister 1				
Sister 2				
Sister 3				
Sister 4				
P Grandmother				
M Grandmother				
P Aunt 1				
P Aunt 2				
P Aunt 3				
P Aunt4				
M Aunt 1				
M Aunt 2				
M Aunt 3				
M Aunt 4				
Daughter 1				
Daughter 2				
Daughter 3				
Daughter 4				
M ½ sister 1				
M ½ sister 2				
P ½ sister 1				
P ½ sister 2				
M P Cousin 1				
M P Cousin 2				
M P Cousin 3				
Niece1				
Niece2				
Niece3				
Other				

About yourself:

Your age now: _____

Age you got your period: _____

How many births: _____

Age at first child's birth: _____

History of biopsy: Y N Pathology report: _____

Height _____

Wight _____

Ashkenazi inheritance: _____

Genetic testing

Who in the family, which test and what was the result:

_____	/	_____	/	_____
_____	/	_____	/	_____
_____	/	_____	/	_____
_____	/	_____	/	_____
_____	/	_____	/	_____
_____	/	_____	/	_____

Please feel free to share any other additional information you think might help.
